Additional Information

You will not be able to close your Fixed term Deposit account before its maturity date.

* AER stands for Annual equivalent Rate. It illustrates what your interest rate would be if interest was paid and compounded each year and allows you to easily compare different savings accounts. As every advertisement for a savings product, which quotes an interest rate, will contain an AER you will be able to compare more easily what return you can expect from your savings over time.

**Gross is the rate of interest payable before any tax is taken off.
